7.2.1 BEST PRACTICES

1. TITLE: OUTREACH PROGRAMS

Objectives: Outreach Programs sensitize the students towards their duties and responsibilities within the community and society. It helps in the development of student's character and citizenship spirit and develops the purpose, integrity, leadership skills, ethical practices and civic responsibilities. It helps in connecting students with the community. It also helps students to learn new skills foster healthy relationship and discover their interests.

Context: Sensitizing the students toward the Community Services and committed to the idea of social responsibility, our college is always keen on the grounds of doing community work selflessly. It also reflects that the prime intention of our institute is to work for the welfare of the common masses. Education is only one aspect of it. So, while educating the students, the college also tries to encourage them to work for the welfare of the community. 'Community life enrichment' includes programs, plans and activities undertaken in the college that address physical, social, emotional, and cognitive well-being of the local residents. To foster personal growth and creativity, these programs are designed to keep students engaged actively in the community service.

Practice: The institution has various units/clubs like NSS, NCC, Rovers & Rangers, Eco Club, Red Ribbon Club, Road Safety Club etc. which provide various kinds of opportunities to the students to come forward and reach to the community and society. These units/clubs conduct several outreach programs throughout the year. The key idea behind these practices is to provide opportunities to the students and teachers to engage with community. Several activities like Tree Plantation, Cleanliness Drives, Awareness Rallies on Plastic Pollution, Drug Menace, Road Safety Rules, Green Diwali, HIV/AIDS, Traffic Management, Communal Harmony Campaign, Donation for Ankush, Educational Tours etc. were conducted during the session 2023-24.

Evidence of Success: Students show great enthusiasm in coming forward for all the outreach programs conducted by the various units/clubs in the college.

Problems Encountered and Resources Required: In spite of putting up best efforts on part of the college, there remain certain bottlenecks that hurdle the task of community enrichment. There is always problem regarding time management with the scheduled class hours and students cannot spend much time after their classes. Most of the students come from villages and due to limited bus services the activities have to be scheduled in accordance.

2. TITLE: SKILL DEVELOPMENT PROGRAMS

Objectives: Skill development programs make students self reliant and promote economic and employment growth. Skill development becomes crucial in today's world where the job opportunities have become very marginally and students must look into the option of self employment. The institution works with the vision that in today's competitive world, students should also learn to capitalize on the local resources which are easily available to them at their doorstep. In order to realize this vision, the institution carried out various activities for the skill development of the students.

Context: To make students independent, self reliant and skilled.

Practice: Institution has started vocational courses like BVoc in Tourism Management and Retail Management from the Session 2023-24. Although other professional courses like BCA and PGDCA are also running in the institution from past many years. Institution aims at engaging students in skill building activities like some art & craft workshops as they enhance their cognitive abilities, critical thinking and problem solving skills, entrepreneurial skills, leadership, employability and creative skills.

Being a hilly area our prime resource of economy is horticulture where apples are at the top then pears, plums, and other cash crops are also prevailing. Other than this we are enriched with the beautiful ambience which has attracted tourists to visit so tourism, trekking, water sports etc are also developing as the source of economic development in our area. So students are always motivated to learn the all these skills which they can use at their own places to become self reliant.

Evidence of Success: There are 55 students in Tourism Management and 30 students in Retail Management (BVoc), 33 students in the BCA and 04 students in PGDCA during the Session 2023-24. Many girls took part in art & craft workshop and learnt to make rakhees, decorative articles; bouquets etc. which was helpful for them develop some skills.

Problems Encountered and Resources Required: People in our area are more fascinated towards Govt. Jobs or doing their own business rather opting for jobs in corporate sector. Many of the students and parents are unaware of courses like BVoc, BCA and PGDCA so they are reluctant to do these courses due to their fewer scopes in Govt. Sector. So only few students take admissions in such courses. Awareness
